It's always pretty cool when two breweries create a beer together. This collaboration is even cooler because it involves a national craft brewery New Belgium Brewing and a more local craft brewery Firestone Walker Brewing! Together, the two of them created their Fat Hopy Ale, a tribute to New Belgium's Fat Tire.

New Belgium Brewing is celebrating their **25th anniversary** which is a HUGE milestone. Hopy Birthday New Belgium! They are one of the original craft breweries that helped to influence many of the craft brewers who are successful today. So in celebration, Barrel Republic Oceanside will be hosting a tap takeover in their honor!

The big event will take place this **Thursday, July 14th from 6pm to 12am** at Barrel Republic's Oceanside location. For more information, check out their event listing [HERE](#) to respond to the event and find out more details! We promise it'll be a good time with plenty of great beer to go around and get social about!
